Nishant Sharma

Co-Founder at Wort | Ex-Founder at macverin.com (10+ Clients)

| AI + Software Engineer | Building Agentic AI | MS Computer

Engineering @ NYU

New York City Metropolitan Area

Summary

AI Software Engineer with experience of Full-Stack, Cloud, DevOps and ML Engineering. I am currently working on AI Agents, memory and retrieval issues of agents, and solutions via SFT, Reinforcement learning and architectural patterns consisting of graph based datasets, key-value store integration and design choices. I will be graduating Master of Science Computer Engineering at New York University by May 2026. I am actively looking for full-time Software Engineering / AI Engineering roles starting June 2026. Creating an impact with my work is what drives me everyday.

Experience

New York University

Teaching Assistant

September 2025 - Present (6 months)

New York, NY

Graduate Machine Learning (CS-GY 6923) Teaching Assistant at Computer Science, New York University. Fall 2025 - Spring 2026

Wort.AI

Co-Founder

June 2025 - Present (9 months)

New York, New York, United States

1. Designed a recursive research agent that uses BFS algorithm to autonomously detect information gaps and navigate complex web sub-graphs to generate comprehensive reports.
2. Architected a custom hybrid memory system combining Qdrant (Dense + Sparse BM25) with Cross-Encoders and RRF re-ranking to achieve state-of-the-art retrieval precision.
3. Implemented RLVR to fine-tune Qwen models for complex query generation, elevating base accuracy from 71% to 94% and surpassing GPT-5.1 benchmarks (91%).

4. Developed parallel scrapers capable of navigating dynamic, human-interaction-heavy websites to harvest structured data for agent processing.

Macverin Tech

Co-Founder

July 2022 - August 2024 (2 years 2 months)

India

1. Led technical strategy and system design, architecting scalable distributed solutions using versatile backend stack (Java Spring, Python Django/FastAPI, Node.js) automating complex business workflows.
2. Engineered full-stack architectures using JavaScript ecosystem (TypeScript, React, Next.js, Express), creating modular, type-safe interfaces backed by robust APIs to handle data-intensive workloads.
3. Directed end-to-end product delivery and DevOps, managing complete SDLC from UI/UX design (Figma) to cloud deployment (AWS, Docker), and establishing automated CI/CD pipelines that ensured 99.9% system availability.

Computer Society of India

2 years 11 months

Technical Lead

June 2023 - June 2024 (1 year 1 month)

India

Web Development Mentor

October 2022 - May 2023 (8 months)

Python Programming Mentor

August 2021 - October 2022 (1 year 3 months)

Chegg India

Subject Matter Expert Computer Science

September 2022 - July 2023 (11 months)

India

1. Delivered 1,000+ step-by-step academic solutions in computer science and engineering, maintaining a 97% helpfulness rating.
2. Simplified complex topics to enhance student understanding, driving engagement and learning outcomes.
3. Reviewed and improved solution accuracy, contributing to higher content quality and platform reliability.

Education

New York University

Master of Science - MS, Computer Engineering · (August 2024 - May 2026)

Dr. A.P.J. Abdul Kalam Technical University

Bachelor of Technology - BTech, Computer Science and Engineering · (August 2020 - June 2024)
