Nishant Sharma

AI Engineer & Researcher | Co-Founder @ Wort | Building Agentic AI | Ex-Founder (500+ Users) | MS Computer Engineering @ NYU
New York City Metropolitan Area

Summary

Computer Engineering graduate student at NYU Tandon with a focus on agentic AI systems and machine learning. Currently co-founding Wort.AI, developing AI agents that process live web data and academic papers for research synthesis.

I have experience building and scaling technology platforms, including co-founding Ingelt Board which grew to serve 5,000+ users. My technical background spans full-stack development, distributed systems, and AI/ML implementation.

Technical Experience:

- Agentic AI and multi-agent systems using LangGraph and LangChain
- Machine learning with PyTorch, TensorFlow, and transformer fine-tuning
- Backend development and cloud infrastructure on AWS
- Database optimization and microservices architecture

Recent Work:

- Fine-tuned BERT models achieving 94.2% accuracy using parameter-efficient techniques
- Created open-source DSA repository with 139 stars during Hacktoberfest
- Led technical workshops and mentored students in programming competitions
- Built production systems handling 300K+ daily requests with 99.9% uptime

I'm interested in AI research engineering roles and software engineering positions at companies working on innovative AI systems. Always open to discussing agentic AI, distributed systems, and the intersection of research and production engineering.

Experience

New York University

Teaching Assistant

September 2025 - Present (5 months)

New York, NY

Graduate Machine Learning (CS-GY 6923) Teaching Assistant at Computer Science, New York University. Fall 2025 - Spring 2026

Wort.AI

Co-Founder

June 2025 - Present (8 months)

New York, New York, United States

Your Personal Research Assistant. Why would you use it over any traditional Generative AI tools? It is specifically tailored to minimize hallucinations and have a directed research.

Usecases:

1. General Lifestyle.
2. Study.
3. Research.

InGelt Board

Co-Founder and Ex-Tech Lead

December 2022 - July 2024 (1 year 8 months)

India

- Architected a multi-tenant platform supporting workflows for Teachers, Students, and Management, featuring real-time capabilities: Group Chat and Live Streaming.
- Designed a cloud-native backend on AWS, utilizing S3 for scalable content storage mapped via RDS, and ensuring high availability through region-specific EC2 instance management.
- Implemented secure infrastructure by configuring AWS IAM roles and security groups, while integrating stripe payment gateway to handle secure transactions.

Computer Society of India

2 years 11 months

Technical Lead

June 2023 - June 2024 (1 year 1 month)

India

Web Development Mentor
October 2022 - May 2023 (8 months)

Python Programming Mentor
August 2021 - October 2022 (1 year 3 months)

Chegg India
Subject Matter Expert Computer Science
September 2022 - July 2023 (11 months)
India

1. Delivered 1,000+ step-by-step academic solutions in computer science and engineering, maintaining a 97% helpfulness rating.
2. Simplified complex topics to enhance student understanding, driving engagement and learning outcomes.
3. Reviewed and improved solution accuracy, contributing to higher content quality and platform reliability.

Macverin Tech
Co-Founder
July 2022 - December 2022 (6 months)
India

- Spearheaded technical strategy and system design for key client accounts, architecting scalable distributed solutions using a versatile backend stack (Java Spring, Python Django/FastAPI, Node.js) to automate complex business workflows.
- Engineered high-performance full-stack architectures by mastering the modern JavaScript ecosystem (TypeScript, React, Next.js, Express), creating modular, type-safe interfaces backed by robust APIs to handle data-intensive workloads.
- Directed end-to-end product delivery and DevOps, managing the complete SDLC from UI/UX design (Figma) to cloud deployment (AWS, Docker), and establishing automated CI/CD pipelines that ensured 99.9% system availability.

Education

New York University
Master of Science - MS, Computer Engineering · (August 2024 - May 2026)

Dr. A.P.J. Abdul Kalam Technical University
